ONLY XC60 MAKES IT POSSIBLE

Ravi Nayar doesn't follow the beaten path when he travels. His Volvo XC60 allows him to make his own road.

RAVI NAYAR IS not your ordinary luxury SUV buyer. The first buyer of the Volvo XC60 in India, he received his car on December 4, 2010. And he has already clocked up 25,000km on the odo. He doesn't use this car for his daily commute around the city. He uses the XC60 to explore India. And go where no other car will go. Whether he is marshalling at the Desert Storm, or exploring the countryside it is the XC60 that does the job. He carries his tent, water, food, supplies, and even a portable freezer and a toilet in the XC60 so that he doesn't have to rough it out even in the wild. What you see here are a few of the 20,000 photographs clicked by his wife Carmen Nayar on their travels made possible by the Volvo Xc60. Enjoy.
